

Exciting NEW DVD from Creation Research

DARWIN on the rocks

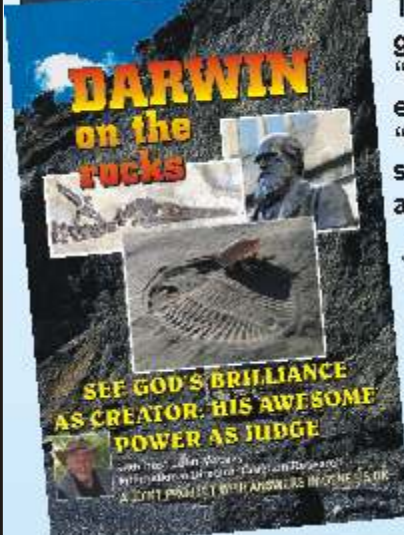

Parts 1 & 2 ON ONE DVD, 75 min, (suitable for teens+)
FILMED IN WIDESCREEN

In a year when the world will spend billions celebrating the 200th birthday of the man who said "I am sorry to have to inform you that I do not believe in the Bible as a divine revelation, and therefore not in Jesus Christ as the son of God" (Charles Darwin, November 1880), you need to be equipped with the evidence God's Word is true from the beginning.

Those who have seen it have given rave reviews, including: "Fabulous Facts!"; "A great encouragement to the saints"; "Real help to those who need to be saved"; "Spectacular Scenery!"; and "Very convincing".

Join world leader in Creation Research John Mackay, as we travel the globe collecting the evidence from Creation to the fall, to the flood and beyond. God's Word has told us that the evidence is so clear it can be seen and understood, so that none have any excuse. See it for yourself on this great new documentary. Get your copy now!
