

# JOIN THE DINO DIG JULY 2005 GLENDIVE MONTANA

*A joint project of FACT Montana & Creation Research USA*

Learn how to do real fossil exploration and excavation of dinosaur specimens in the fossil-rich Hell Creek Formation of eastern Montana. Become an actual part of Creation Research and come look for (and find) the evidence of Gods creation and His judgment.

Follow the footprints of such famous dinosaur paleontologists as Marsh, Cope, Osborn, Williston, Sternberg, and Barnum Brown, the discoverer of T-Rex.

- **WHEN? July 11-16<sup>th</sup> & July 18-23<sup>rd</sup> AD 2005**

**Creation Research Dino Dig Camps Start** on Monday July 11<sup>th</sup> or 18<sup>th</sup>. Choose which week you would like to attend and advise us on the application form at end.

- **WHERE? Glendive, Montana**

The dig is located on 37 acres of the fossil-rich Hell Creek next to Glendive, Montana. This property is owned by FACT Inc. Montana.

On this site we are excavating a Triceratops plus fossil crocodile teeth, pine cones, leaves, raptor bones, and other singular Dinosaur leg bones, turtle bones and shells plus fish and shark remains. The many specimens buried with a host of aquatic animals, indicate rapid catastrophic flood burial.

On the large ranch adjoining our dig site, Pachycephalosaurus, Caenagnathus, T-Rex, Edmontosaurus, Maiasaurus, other Hadrosaurs, Triceratops, Torosaurus, Ankylosaurus, Thescelosaurus, Champsosaurs, Turtles, Alligator Gar, and Crocodiles have been excavated.

- **HOW?**

Teams of 5 or 6 will be assigned a site and led by one of our experienced dig supervisors. The site will be set-up with established survey points for proper grid work and the dig supervisor will maintain an on-going official sketch of the site in 1m (3'3") squares x 10cm (4") in depth. The proper technique of digging, sketching/recording, transporting overburden, screening, stabilizing, plastering, removing and identifying specimen will be taught to each team member. Duties will be rotated throughout the day to allow each team member a complete paleontological field experience.

- **COST** for the trip is in two parts Dig fee and Accommodation Fee
- **YOUR ACCOMMODATION FEE IS PAID DIRECTLY BY YOU TO MOTEL OR RV PARK**
- **DIG FEE IS PAID WITH YOUR APPLICATION TO ATTEND. SEE END ACCOMODATION CHOOSE ONE OF THE 4 FOLLOWING OPTIONS THAT SUITS YOUR BUDGET:**

If you cancel before May 31, 2005, we will refund 50% of the dig fee per person. After May 31, 2005 we will not be able to refund the dig fee.

#### **CANCELLATION OF THE DIG**

FACT Inc and Creation Research reserve the right to cancel prior to any dig if numbers are too few or weather is unsuitable. Dig fees would be refunded in such cases minus a \$50.00 administration fee.

## HOW TO APPLY

To attend, complete either web form  
or print & mail application form from the web  
or at the end of this document if a print advertisement.

### • **CONDITIONS OF PARTICIPATION:**

#### **1. DINOSAUR FOSSIL OWNERSHIP**

Any original dinosaur bones excavated during the dig belong to FACT Inc., Montana. However, the finder may purchase bones at a wholesale rate either as found, or as fully prepared by our experts.

#### **2. BONE FRAGEMENTS**

Surfaced weathered dinosaur bone fragments will be yours to keep at the discretion of FACT Inc.

#### **3. NON DINOSAUR FOSSILS**

Including fossil fish, leaves, fruits, crocodile parts, will be yours to keep at the discretion of FACT Inc.

#### **4. FOSSIL NAMING**

If you make a new Dino discovery, you have the right to name the creature.

#### **5. NUMBERS**

The number of participants per week is limited to a maximum of 36 and a minimum of 20. Participants must be over 12 years of age. Parents or guardians must accompany minors. It is recommended participants be in good general health and bring protective clothing suitable for a Montana summer. (More information regarding clothing will accompany confirmation of registration.)

#### **6. SAFETY WAIVER**

While it is our goal to see to the safety of each team member, all persons attending the site must be realistic in realizing that this paleontological experience takes place in the Hell Creek Formation/Badlands of Montana. Thirst, exposure, insect/reptile bites, falls, sprains/breaks, falling rock, sunburn, etc. are all hazards to be avoided. We will provide instructions and a suggested list of items to bring to minimize these hazards.

We also require that each person taking part or attending the dig sign a waiver indicating they are aware of the potential hazards and do not hold FACT Inc. or Creation Research responsible for any injuries sustained during the dig. (For those team members who are minors, a waiver from their parent or guardian will be required.) Waiver form will be sent with confirmation of dig registration. Please sign and return.

### • **GETTING TO GLENDIVE, MONTANA**

#### **FLYING:**

- (a) Fly to Dickinson or Williston, North Dakota  
then rent a car in Dickinson or Williston and drive to Glendive (approx. 1 ½ hrs).
- (b) Fly to Billings, Montana change plane and on to Glendive, Montana  
or
- (c) Fly to Billings, Montana and rent a car in Billings and drive (3 ½ hrs.) to Glendive.

**DRIVING: From your home to Glendive, Montana USA, Glendive is in far eastern Montana on Interstate 94 approximately 36 miles from North Dakota.**
